

152 mm VRS-546 ROUND WITH JAMMER-CARRYING PROJECTILE "STARSHEL"

NSN: 1320-50-0000449

It is designed for delivering single-action radio jamming transmitters in areas occupied by the enemy, for creating barrage VHF jamming in the enemy tactical commanding units. It is fired from the D-20 gun-howitzer, ML-20 howitzer-gun and 2S-3M self-propelled howitzer.

TECHNICAL DATA

CHARACTERISTICS

Projectile caliber, mm	152
Range of jamming, m	
- maximum	16900
- minimum	4000
Height of separation above target, m	
- maximum	1500
- minimum	800
Angle of impact with the ground	up to 30 degrees from the normal to terrain
Operational range, m	not less than 700
Frequency range, MHz	20 .. 100
Weight of projectile (unfuzed), kg	43
Weight of charge in a cartridge case	
- full variable charge, kg	16,400
- reduced variable charge, kg	12
Weight of jammer, kg	3,800

WEAPON SYSTEM

D20 gun-howitzer,
ML-20 howitzer-gun,
2S3 self-propelled howitzer

PACKING

Dimensions, mm	835x488x280
1 round in a wooden case	
Gross weight, kg	88
